

**Description:**

Distribution Work Plans and Long Range studies are interrelated and include the following: system modeling to recommend system improvements, writing & coordinating the Borrower's Environmental Report, furnishing Financial Forecast data - done by MarketNSight, an internally engineered tool (available to our clients) and securing RUS approvals (when applicable).

Bartlett Electric Cooperative, Inc., Karnes Electric Cooperative, Inc., Magic Valley Electric Cooperative, Inc., and Navarro County Electric Cooperative, Inc., are some of our clients who have had Distribution Work Plans and Long Range Studies prepared by EPE on a regular basis since 1971.
